

32mm Tape Feeder for Siemens X Series

This 32mm tape feeder is designed for Siemens X Series pick-and-place machines. It ensures consistent and accurate delivery of components for high-throughput SMT assembly.

Product Overview

Precision-engineered 32mm tape feeder for high-speed automated placement systems.

High-Precision Tape Feeder for Siemens X Series

This 32mm tape feeder is engineered specifically for use with Siemens X Series modular placement machines. It is designed to provide high-precision component delivery, ensuring optimal efficiency and reliability in automated SMT assembly lines. With its robust construction, this unit supports high-throughput production environments while minimizing downtime during component changeovers.

Technical Specifications

Model Number	00141274
Tape Width	32 mm
Compatible Machine Series	Siemens X Series

Product Compatibility List

Available Feeder Widths

Feeder Type	Model Numbers
8mm	00141270 / 00141290 (Single/Double Card)
12mm	00141271 / 00141291
16mm	00141272 / 00141292
24mm	00141273 / 00141293
32mm	00141274 / 00141294
44mm	00141275 / 00141295
56mm	00141276 / 00141296
72mm	00141277 / 00141297
88mm	00141278 / 00141298
