Product Overview

Versatile Dual Fuel Performance

This portable 3300W inverter generator provides a flexible power solution by operating on either gasoline or liquid propane (LPG). Engineered with advanced inverter technology, it delivers clean, stable power suitable for sensitive electronic devices while maintaining quiet operation. With integrated ECO mode, overload protection, and dual-start functionality, it is designed for reliability in recreational and emergency power scenarios.

Power Specifications

Power Performance

3300 W

Starting Watts (Gasoline)

3000 W

Running Watts (Gasoline)

3000 W

Starting Watts (LPG)

2700 W

Running Watts (LPG)

Technical Details

Engine Configuration

- 193cc Displacement
- 4-Stroke OHV Design
- Single Cylinder
- Air Cooled

Starting System

Recoil Start, Electric Start

Operational Features

Fuel Tank Capacity

6.8 L

Noise Level

63 dB(A)

Safety & Compliance

Safety Protections

Overload Protection • Low Oil Shutdown • Floating Neutral
