Overview

Clean and Quiet Power

This portable 3300W inverter generator provides reliable, clean power suitable for sensitive electronics. It features a versatile triple-start system including recoil, electric, and remote control for maximum convenience. Designed with an ECO mode for fuel efficiency and parallel capability for increased power, it is an ideal solution for outdoor recreation or emergency backup.

Performance

Power Output

3300 W

Starting Watts

3000 W

Running Watts

Engine Specifications

- 175cc Displacement
- 4-Stroke
- Single cylinder
- OHV technology
- Air cooled

Operations

Starting Mechanisms	Recoil, Electric, Remote Control
Fuel Efficiency	6.8 L
Noise Level	63 dB(A)

Connectivity

Output Ports

Port Type	Quantity/Description
120V 30A RV Outlet	1
120V 20A Outlets	2
USB Port	Integrated

Features

Key Features

Parallel Capable • ECO Mode • Low Oil Shutoff • Overload Protection • Digital Display
