

3500W Electric Hot Plate Cooker

This electric hot plate cooker provides 3500W of power. Its compact size of 420 x 330 x 100 mm makes it suitable for diverse kitchen environments.

Overview

Professional Electric Hot Plate

This 3500W electric hot plate cooker is designed for efficient, high-performance cooking in professional or commercial kitchen environments. Featuring a sleek black ceramic glass cooktop, it offers rapid heating capabilities and is easy to clean, ensuring durability and a modern aesthetic with its stainless steel housing. The integrated digital display and touch controls provide precise management over temperature and timer settings, while built-in safety features like overheat protection and automatic shut-off ensure reliable operation.
