

350L Chest Freezer

This chest freezer provides a 350L volume for frozen food storage. It maintains temperatures below -18 and uses R134a refrigerant.

Overview

High-Capacity Chest Freezer

This 350L chest freezer is designed for efficient and reliable frozen food storage in professional settings. Featuring a spacious interior and a robust, compact design, it ensures consistent temperature maintenance for long-lasting performance. The unit is built with high-quality insulation and is suitable for various commercial environments requiring ample freezing capacity.

Performance

Key Performance Metrics

350 L Capacity	-18 °C Min Temperature	57 KG Weight
--------------------------	----------------------------------	------------------------

Refrigerant	R134a
Foam Insulation	Cyclopentane (70mm)

Electrical Specifications

Energy Consumption Class

B

Power Requirements	220V / 50-60Hz
