

3.5kW Gasoline Inverter Generator

This gasoline-powered inverter generator provides clean and reliable power. It features a 4-stroke, 182cc engine, delivering a maximum power output of 3500W and a running power of 3200W.

Product Overview

Clean and Reliable Power

The 3.5kW gasoline inverter generator is engineered to provide stable, clean power suitable for sensitive electronics. Featuring a robust 4-stroke engine and a 100% copper alternator, this unit ensures efficient power generation and enhanced durability. Designed for versatility, it delivers reliable performance for professional applications requiring consistent electrical output.

Technical Specifications

Rated Power	3200 W
Maximum Power	3500 W
Engine Displacement	182 cc
Engine Type	4-stroke
Fuel Tank Capacity	1.2 L

Electrical Output

Voltage / Frequency	220V / 50Hz
Rated Current	4 A

Construction & Features

Alternator Material	100% Copper
Key Features	Inverter Technology, Stable Power Output, Portable Frame
