

35W-250W General Illumination Lighting System

This is a GL Series 35W-250W lighting system. It is designed for general illumination purposes.

Product Overview

General Illumination Lighting System

This professional-grade lighting system is engineered for versatile general illumination applications, suitable for commercial or industrial environments. The unit features a robust spherical diffuser for optimal light distribution paired with a dedicated ballast or driver housing. Designed for reliability and performance, it supports a wide power range to meet diverse lighting requirements.

Technical Specifications

Power Range

35 W Minimum Power	250 W Maximum Power
------------------------------	-------------------------------

Included Components

- Spherical diffuser/globe
- Mounting base
- External ballast/driver unit

Application Suitability

Commercial Lighting, Industrial Lighting, General Illumination
