

4-Digit Combination Key Storage Box

This key lock box is constructed from durable aluminum alloy, designed to withstand hammering, sawing, and prying. It provides secure key storage with a 4-digit combination lock and is rust-proof for outdoor use.

Product Overview

Secure Key Management Solution

This 4-digit combination key storage box provides a robust and reliable method for managing access to keys and access cards. Constructed from durable aluminum alloy, it is engineered to withstand physical attacks such as hammering, sawing, and prying. Its weather-resistant, rust-proof design makes it an ideal choice for secure outdoor key storage.
