

4-in-1 Portable 3G & Wi-Fi Router with Power Bank

This versatile device combines a 3G router, Wi-Fi router, power bank, and multimedia Wi-Fi sharing functionality. It allows users to create a portable Wi-Fi hotspot, extend existing Wi-Fi networks, charge mobile devices, and share multimedia content wirelessly.

Product Overview

Versatile Connectivity and Power Solution

The ShareBox is a professional-grade 4-in-1 portable device designed for modern connectivity needs. It integrates 3G routing, Wi-Fi hotspot creation, a built-in power bank for charging mobile devices, and multimedia content sharing into a single compact unit. This multi-functional tool is an essential asset for remote work, business travel, and field operations where reliable internet and device power are critical.
