

4-Inch Auto-Dimming Rearview Mirror Monitor with Compass and Temperature Display

This 4-inch rearview mirror monitor seamlessly replaces the original mirror using a specific integrated bracket. It features auto-dimming, a compass, and a temperature display.

Overview

Enhanced Visibility and Safety

This 4-inch rearview mirror monitor is designed to provide enhanced visibility and safety features for your vehicle. It seamlessly integrates into your existing rearview setup, offering a clear, high-resolution display for backup cameras or other video sources. With built-in compass and temperature displays, it offers essential driving information alongside its primary monitoring functions.
