

4-Inch Class 150 Flanged Steel Gate Valve

This industrial gate valve is designed for fluid control in pipelines. Constructed from WCB carbon steel, it features a flanged connection for secure installation and is rated for 150 class pressure.

Overview

Industrial Fluid Control Solution

This 4-inch gate valve is engineered for reliable fluid control in demanding industrial pipeline applications. Constructed from high-quality WCB carbon steel, it ensures durability and long-term performance under pressure. Designed with a standard flanged connection, it allows for secure and straightforward installation in various piping systems.
