Overview

Compact Desktop Labeling Solution

This 4-inch desktop printer is engineered for versatile thermal transfer and direct thermal labeling applications. Designed for environments with limited space, it delivers high-resolution output for barcodes, text, and graphics. Its robust build and user-friendly operation make it a reliable choice for retail, healthcare, logistics, and manufacturing workflows.

Technical Specifications

Connectivity

- USB
- Ethernet
- Serial

Printing Technology

Thermal Transfer, Direct Thermal

Max Print Width

4 inch

Performance

Key Capabilities

High Resolution • Fast Print Speed • Easy Media Loading • Compact Design

Applications

Suitable Industries

Retail, Healthcare, Logistics, Manufacturing
