

4-Inch Earth Auger for Planting and Fencing

This earth auger features all-steel construction and fits all Gardentrax powerheads. It is designed for planting trees, gardening, and large fencing projects, and fits a 7/8 inch shaft powerhead.

Product Overview

Professional Earth Auger Solution

This 4-inch earth auger is engineered for efficient soil drilling, making it an essential tool for planting trees, gardening, and large-scale fencing projects. Constructed from durable, high-quality steel, the auger features a spiral design that ensures quick and effective soil removal across various soil conditions. Designed for reliability and longevity, this robust tool provides a consistent performance for demanding outdoor landscaping tasks.
