

4-Inch Flexible Grinding Wheel

This 4-inch flexible grinding wheel is designed for diverse grinding applications. Its flexible construction facilitates controlled material removal.

Product Overview

High-Performance Flexible Grinding

This 4-inch flexible grinding wheel is engineered for superior material removal and controlled grinding performance. Constructed with premium grains and heavy-duty fiberglass reinforcement, it offers exceptional durability and safety for professional applications. Designed for use with angle grinders, this wheel ensures consistent results and reduced downtime.

Technical Specifications

Wheel Diameter	4 inch
Reinforcement Material	Heavy-duty fiberglass
Abrasive Composition	Premium abrasive grains

Features

Key Benefits

- Flexible construction for smooth material removal
- Double reinforcement for enhanced safety
- Long-lasting abrasive performance
- High-quality bonding agents

Quality Standards	Rigorous Quality Control, Double Reinforced
