

# 40 HP Farm Tractor

This 40 HP farm tractor is a versatile machine designed for various agricultural tasks. Its powerful engine provides ample horsepower for plowing, tilling, and hauling.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Compact Tractor

This 40 HP farm tractor is engineered for garden and small-scale farming operations, featuring an adjustable wheelbase for maximum flexibility. Its compact design and agile operation allow for unrestricted movement in greenhouses and confined fields where larger machinery cannot reach. With robust hydraulic capabilities and quick-linkage implements, it offers a reliable, multi-functional solution for agricultural and gardening tasks.

## Key Features

### Core Capabilities

4WD Capability, Adjustable Wheel Base, Hydraulic Steering, Quick Linkage, Compact Design

## Technical Specifications

### Performance Metrics

**40 HP**

Maximum Power

**6.86 KN**

Max Traction Force

**2350 r/min**

Rated Revolution

### Engine Configuration

4-Cylinder Internal Combustion

### Transmission

F8+R2 (4+1)\*2

### PTO Type

135 Rectangle Spline with 6 teeth

## Dimensions and Weights

### Size and Weight Specifications

Metric	Value
Structure Weight	1050-1060 KG
Dimensions (L*W*H)	2750*1560*1890 mm
Wheel Base Range	970-1270 mm
