

400 kVA Silent Diesel Generator

This 400 kVA silent diesel generator is engineered for dependable power generation. Its sound-attenuated enclosure ensures minimal noise, making it suitable for diverse applications.

Overview

High-Performance Power Generation

This 400 kVA silent diesel generator is engineered for reliable and efficient power generation in noise-sensitive environments. Featuring a robust sound-attenuated enclosure, it ensures minimal noise pollution while providing stable continuous or standby power. Equipped with advanced control systems and safety monitoring, it is an ideal solution for industrial, commercial, and residential backup applications.

Technical Specifications

Generator Drawing

Drawing of keypower generator

Detailed engineering layout and dimensions of the generator unit.

Engine Features

- Powered by reliable heavy-duty engines
- Branded alternator for stable output
- Efficient fuel consumption
- Advanced soundproofing for quiet operation

Available Configurations

Open Type, Silent Type, Super Silent Type

Control & Safety

Genset Controller Features

- Automatic Start/Stop functionality
- Real-time status monitoring
- Mains and Load management
- Manual override capability

Safety Indicators

Water Level Alarm, Oil Level Monitoring, Fuel Level Indicator, Thermal Protection

Compliance & Quality

Certifications

Compliance with international ISO and CE standards for quality and environmental management.

Quality Standards

ISO 9001 • ISO 14001 • CE Certified • TUV CE • GB/T 19001-2016

Regulatory Compliance

Conforms to EC Council Directive 2006/42/EC Machinery standards.
