

## 400A 1000V/1250V/1500V Four-Pole MCCB

This molded case circuit breaker is designed with busbar protection against electric shock. The busbar connection row is integrated with the circuit breaker, reducing the quantity of connection points.

### ADDITIONAL IMAGES

### Overview

#### High-Performance DC Protection

This 4-pole molded case circuit breaker (MCCB) is engineered for demanding DC electrical distribution systems, supporting voltages up to 1500V. With a rated current of 400A, it provides robust protection against overloads and short circuits in industrial and commercial environments. The unit features a reliable push-to-trip mechanism for manual testing and complies with international standards for safety and performance.

### Electrical Ratings

Rated Current	400 A
Rated Working Voltage	1000V, 1250V, 1500V
Breaking Capacity (Icu/Ics)	10 kA
Rated Insulation Voltage (Ui)	1500 V
Rated Impulse Withstand Voltage (Uimp)	12 kV

### Mechanical & Installation

Poles	4
Wiring Mode	Up incoming and down outcoming
Mechanical Life	10000 cycles
Electrical Life	5000 cycles

## Compliance

### Quality Certifications

CCC • CB • TÜV

### Compliance Standards

- GB/T 14048.2
- IEC/EN 60947-2
