

400W Monocrystalline Solar Panel

This 400W monocrystalline solar panel is engineered for optimal energy conversion. Its robust construction is designed to withstand harsh environmental conditions, making it suitable for residential, commercial, and utility-scale applications.

Product Overview

High-Efficiency Solar Power

This 400W monocrystalline solar panel is engineered for optimal energy conversion and long-term durability. It is designed to support a wide range of solar energy systems, making it a versatile choice for residential, commercial, and utility-scale installations. Its robust construction ensures reliable performance even under harsh environmental conditions, providing a sustainable solution for reducing energy costs.

Technical Specifications

Rated Power Output

400 W

Peak Power

Technology Type

Monocrystalline, High-Efficiency

Application

Applications

- Residential
- Commercial
- Utility-scale
