Product Overview

Portable Cooling Solution

This 40L portable refrigerator is designed specifically for vehicles with a 24V DC power supply, offering a reliable solution for keeping food and beverages fresh during long hauls or outdoor trips. It features intelligent monitoring with Bluetooth connectivity and operates with low noise levels for a quiet environment. Its compact design includes a hidden rod for easy transport, while the robust construction ensures durability for travel.

Technical Specifications

Capacity	40 L
Input Voltage	24 V DC
Minimum Temperature	-20 °C

Features

Design Highlights

- Hidden rod design for portability
- Compact space-saving footprint
- Low noise operation
- Energy-saving technology

Smart Features

Bluetooth Control, Intelligent Monitoring

Usage

Ideal For

Trucks • Road Trips • Camping • Outdoor Activities
