Product Overview

Compact Industrial Pressure Gauge

This 40mm pressure gauge is engineered for precise pressure monitoring up to 7 kgf/cm². Featuring a durable chrome-plated case and a clear, dual-scale dial for MPa and kgf/cm², it provides reliable performance in a compact form factor. Designed for versatility, this gauge is specifically marked for oil-free applications, making it an excellent choice for various pneumatic and hydraulic systems.

Physical Characteristics

Dial Size	40 mm
Case Finish	Chrome-plated
Mounting Orientation	Bottom

Performance

Maximum Pressure

7 kgf/cm²
Max Pressure

Application Compatibility

Oil-free

Pressure Scales	MPa, kgf/cm ²
