

410W Monocrystalline Solar Panel

This high-efficiency 410W monocrystalline solar panel is designed for residential and commercial applications. Its advanced cell technology increases power output and improves performance in low-light conditions.

Overview

High-Efficiency Monocrystalline Module

This 410W monocrystalline solar panel is engineered for both residential and commercial solar installations. Utilizing advanced cell technology, it delivers high power output and reliable performance even in low-light conditions. Its durable, robust frame construction ensures long-term resistance to environmental factors, making it an ideal choice for both grid-tied and off-grid energy systems.

Electrical Specifications

Rated Power

410 W

Power Output

20.3 %

Efficiency

Electrical Characteristics

Parameter	Value	Unit
Voltage at Pmax	40.68	V
Current at Pmax	10.12	A
Open Circuit Voltage	48.9	V
Short Circuit Current	10.71	A

Mechanical Specifications

Physical Dimensions	2015 x 1002 x 40 mm
---------------------	---------------------

General Information

Model Number	QJM410-144H
Key Features	Monocrystalline, High Efficiency, Weather Resistant, Residential, Commercial
