Product Overview

Versatile 43-Inch Digital Signage Solution

This 43-inch digital signage display features a minimalist design with an ultra-narrow bezel, making it an ideal choice for modern professional environments. Powered by Android 8.0, it supports both landscape and portrait orientations and offers enhanced visibility with a 450 cd/m² brightness level. The system is designed for efficiency with built-in remote management tools and wireless presentation capabilities that support up to six simultaneous screen shares.
