

4.3" Wireless Digital Backup Camera with Solar Panel

This wireless digital backup camera system includes a 4.3-inch display and a camera with a solar panel. It supports 12V and 24V power systems, making it suitable for various vehicles.

Product Overview

Solar-Powered Wireless Reversing Solution

This 4.3-inch wireless digital backup camera system offers a breakthrough in DIY vehicle safety technology. Featuring integrated solar panels for continuous battery recharging, it eliminates the need for complex wiring, making installation simple and efficient. Designed for versatility, the system supports both 12V and 24V inputs, ensuring compatibility with a wide range of small to medium-sized vehicles.
