

# 43cc 1.5-Inch Gasoline Water Pump

This 43cc 1.5-inch water pump is a portable gasoline-powered pump designed for garden and general water transfer applications. The pump has a 1.5-inch inlet and outlet for efficient water flow.

## ADDITIONAL IMAGES

## Product Overview

### Versatile 43cc Portable Gasoline Water Pump

This 43cc 1.5-inch gasoline water pump is a portable and efficient solution designed for garden irrigation, construction sites, and emergency water removal. Its compact, lightweight design ensures easy transportation and storage without compromising on power. Built for durability, it provides reliable performance for demanding water transfer tasks such as draining and water supply.

## Performance Metrics

### Key Performance Metrics

**43 cc**

Engine Displacement

**1.5 inch**

Inlet/Outlet Diameter

## Engine & Power

Engine Type	Gasoline-powered
Displacement	43 cc

## Technical Specifications

Inlet/Outlet Size	1.5-inch
Model Reference	QGZ40-30C

## Compliance & Standards

### Emission Compliance

Euro 5 • New European Emission Standards

### Certifications

CE, GS, EMC, EUII

## Applications

### Recommended Applications

- Garden Irrigation
- Water Transfer
- Draining
- Construction Sites
- Emergency Water Removal
- General Water Supply

## Design Features

### Design & Construction

- Compact and lightweight design
- Portable for easy transport
- Durable construction for demanding environments
