

44-Inch Ten-Drawer Rolling Tool Chest

This 44-inch tool chest features ten drawers of varying sizes. It is constructed from durable steel with a powder-coated finish and includes smooth-gliding ball-bearing slides and a secure locking system.

Overview

Professional 44-Inch Rolling Tool Storage

This robust 44-inch rolling tool chest is engineered for high-capacity organization in professional workshop environments. Featuring ten drawers of varying depths and heavy-duty ball-bearing slides, it provides secure and efficient access to a wide array of tools. The unit is built for durability with a stainless steel work top, protective bumpers, and a reliable locking system to ensure tool safety.
