

5-Inch Self-Vacuuming Air Sander

This 5-inch air sander is designed with a self-vacuuming feature for efficient material removal and surface preparation. It utilizes compressed air to power its orbital sanding motion, providing a consistent and smooth finish.

Product Overview

Professional Self-Vacuuming Air Sander

This 5-inch air sander is engineered for efficient material removal and high-quality surface preparation across woodworking, automotive, and metal fabrication applications. Featuring an integrated self-vacuuming system, it effectively extracts dust and debris during operation, ensuring a cleaner work environment and improved visibility. The tool utilizes a powerful orbital motion driven by compressed air to deliver a consistent, smooth finish on various surfaces.

Performance Metrics

Idling Speed

10000 RPM

Idling Speed

Gas Consumption

2.8 cfm

Average Consumption

79.2 l/min

Average Consumption

Technical Specifications

Cushion Size	5 inches
Net Weight	1.15 kg

Air Supply Requirements

Air Inlet (NPT)	1/4 inch
Air Hose Inner Diameter	3/8 inch
Recommended Air Flow	2HP

Features

Key Features

- Self-vacuuming system
- Built-in dust bag
- Included vacuum hose
- Orbital sanding motion
