Product Overview

Industrial Hydraulic Lift Table Cart

This hydraulic lift table cart is engineered for the efficient lifting, positioning, and transportation of heavy loads in industrial and commercial environments. Featuring a robust steel frame construction with a corrosion-resistant powder-coated finish, it ensures long-term durability. The integrated foot-operated hydraulic pump allows for smooth, controlled height adjustments, promoting ergonomic working conditions in workshops, warehouses, and factories.

Technical Specifications

Load Capacity

500 kg
Capacity

1000 lbs
Capacity

Construction

Robust Steel Frame, Powder-coated Finish, Corrosion Resistant

Operation & Maneuverability

Mobility

- Swivel casters for easy maneuverability
- Designed for tight spaces
- Smooth and controlled lifting/lowering

Lifting Mechanism

Foot-operated hydraulic pump

Usage

Suitable Environments

Workshops • Warehouses • Factories • Industrial Facilities
