

5.0kW Portable Gas Generator

This 5.0kW gas generator provides reliable power for various applications. It features a durable frame, user-friendly control panel, voltmeter, circuit breaker, AC 220V outlets, and an AVR (Automatic Voltage Regulator) for stable voltage output.

Overview

Reliable Portable Power Solution

This 5.0kW gas generator is engineered to deliver consistent and dependable power for a wide range of residential and commercial applications. Built with a durable frame and a robust engine, it is designed for longevity and ease of use in demanding environments. The unit features an integrated Automatic Voltage Regulator (AVR) to ensure stable power delivery, protecting your sensitive equipment during operation.

Technical Specifications

Rated Power Output

5 kW

Rated Power

Model Number	PDF5GFAP/G
AC Output Voltage	220V

Features

Key Features

- Automatic Voltage Regulator (AVR) for stable output
- Integrated Voltmeter for real-time monitoring
- Built-in Circuit Breaker for safety
- Durable frame construction
- User-friendly control panel

Compliance

Certifications	CSA
