Product Overview

Professional Lubricated Air Compressor

This 50L lubricated air compressor is engineered for reliability and high performance in professional environments. Featuring a 1.5kW motor and a maximum pressure of 8 bar, it provides a consistent air supply for demanding pneumatic tools and maintenance tasks. The robust cast iron cylinder construction ensures a long service life, while the integrated pressure regulator allows for precise control to match specific operational requirements.

Technical Specifications

Performance Metrics

1.5 kW

Input Power

2 HP

Motor Power

8 bar

Max Pressure

188 L/min

Air Delivery

Mechanical Details

Component	Specification
Cylinder Diameter	47 mm
Cylinder Stroke	38 mm
Cylinder Material	Cast Iron
Rated Speed	2850 /min

Electrical Requirements: 220-240V 50Hz

Tank Volume: 50 L

Features

Equipment Highlights

- 1x Pressure Regulator (0-8 Bar)
- 1x Quick Coupler
- Integrated Check Valve
- Cast Iron Cylinder
- 171s Gas-filled time
