

# 52cc Wheeled Grass Trimmer

The 52cc wheeled grass trimmer is designed for tackling tough grass and weeds. Equipped with a 52cc engine, it delivers ample power, while its wheeled design enhances maneuverability and reduces user fatigue.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Wheeled Trimmer

This 52cc wheeled grass trimmer is engineered for demanding landscaping tasks, combining a robust gasoline engine with a highly maneuverable wheeled chassis. Designed to reduce operator fatigue during extended use, it handles thick vegetation and uneven terrain with ease. Its adjustable features, including cutting height and handle positioning, ensure customized comfort and precision for both residential and commercial applications.

## Technical Specifications

Engine Displacement	52 cc
Power Source	Gasoline

## Key Features

### Design Advantages

- Wheeled design for enhanced maneuverability
- Reduced operator fatigue
- Adjustable cutting height
- Adjustable handle for user comfort

Suitable Applications	Residential, Commercial, Large Areas, Uneven Terrain
