

530W Monocrystalline PERC Half-Cell Solar Panel

This high-efficiency 530W solar panel utilizes PERC and half-cell technology. It is designed for grid-tied and off-grid solar power systems, offering a 25-year warranty.

Product Overview

High-Efficiency Solar Power

This 530W Monocrystalline PERC half-cell solar panel offers exceptional performance for both residential and commercial solar installations. Engineered for durability, it features advanced cell technology to ensure high energy conversion rates even in challenging environmental conditions. Its robust construction provides the reliability required for grid-tied and off-grid power systems.

Performance Metrics

Max Power Output

530 W

Rated Maximum Power

20.51 %

Efficiency

Technical Specifications

Electrical Performance Table

Parameter	Value
Open-circuit Voltage (Voc)	49.4V
Maximum Power Voltage (Vmp)	41.6V
Short-circuit Current (Isc)	13.54A
Maximum Power Current (Imp)	12.68A

Logistics

Supply and Packaging

- Supply Ability: 1000 Sets per Day
- Packaging: Export carton and pallet
- Port of Loading: Shanghai or Ningbo
