

5.5 HP Gasoline Engine

This is a 5.5 HP gasoline engine. It is a compact and reliable power source suitable for various applications.

Product Overview

Compact and Reliable Power

This 5.5 HP gasoline engine is designed as a compact and reliable power source for a wide range of industrial and commercial applications. Engineered for efficiency, it features a robust ignition system and versatile starting options to ensure dependable performance in demanding environments. Its optimized design balances power output with fuel economy, making it an ideal choice for machinery requiring consistent and portable power.

Performance Metrics

Key Performance Metrics

5.5 HP Max Output Power	3600 rpm Rated Speed	10.8 N.m Max Torque
-----------------------------------	--------------------------------	-------------------------------

Technical Specifications

Compression Ratio	8.5:1
Ignition System	Non-contact transistorized ignition (T.C.L)
Starting System	Recoil, Hand-operated, Electric start
Air Cleaner Type	Semi-dry, oil bath, double silent and cyclone type

Capacities and Consumption

Fuel Tank Capacity	3.6 L
Engine Oil Capacity	0.6 L
Fuel Consumption	270g/HP-hour

Physical Dimensions

Dimensions (LxWxH)	385x330x370 mm
Net Weight	15 kg

Logistics

Container Loading Capacity

Container Type	Units
20' FT	620
40' FT	1280
40' H' FT	1490
