56kW Heavy-Duty Diesel Engine

This heavy-duty engine features a Ricardo design for enhanced performance. It is engineered for low fuel consumption and high reliability, ensuring long-term durability.

Overview

High-Performance Diesel Power

This heavy-duty diesel engine is engineered to deliver reliable 56kW power output for demanding industrial applications. Designed for durability and consistent performance, it serves as a robust solution for machinery requiring stable and continuous power generation. Its compact yet heavy-duty architecture makes it an ideal choice for integration into various industrial systems.

Technical Specifications

Rated Power Output

56 kW
Power Output

Engine Type	Heavy-Duty Diesel

Application Features

Primary Applications	Industrial Machinery, Power Generation, Heavy-Duty Operations

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
