

# 58.4V 6A LiFePO4 Battery Charger for E-bikes and Scooters

This battery charger is designed for LiFePO4 batteries, providing a 58.4V output at 6A. It is CE certified and suitable for E-bikes, scooters and other compatible equipment.

## ADDITIONAL IMAGES

## Product Overview

### Professional LiFePO4 Charging Solution

The C600M series is a high-performance LiFePO4 battery charger engineered for reliability and efficiency. Designed with a durable aluminium alloy shell, this unit supports a wide range of input voltages and provides a stable 58.4V output suitable for various electric mobility applications. With customizable plug options and a robust build, it is an ideal power solution for e-bikes, scooters, and small electric vehicles.

## Technical Specifications

### Output Power

<b>58.4 V</b> Output Voltage	<b>6 A</b> Output Current	<b>350.4 W</b> Total Power
---------------------------------	------------------------------	-------------------------------

### Input Voltage Range

110-132VAC, 200-264VAC

## Physical Characteristics

### Dimensions & Weight

Configuration	Size (mm)	Weight
With Display	173 x 90 x 63	1.38 kg
Without Display	173 x 90 x 51	1.10 kg

## General Information

### Supported Applications

- Electric Bike
- Electric Motorcycle
- Electric Scooter
- Cleaning Equipment
- Golf Cart

### Certifications & Compatibility

CE Certified, LiFePO4 Compatible, 16S Series

### Warranty

12 Months
