Overview

Reliable Power for Home and Emergency Use

This 5kW diesel generator is engineered for stability and efficiency, making it an ideal choice for residential backup power or small-scale applications. It features a soundproof enclosure for quiet operation and utilizes advanced cooling technology to ensure consistent performance. Designed for durability and ease of use, this unit provides a dependable energy solution for areas without grid access or during emergency power outages.

Performance Specifications

Rated Power

5 kW

Rated Output

Rated Frequency

50 / 60 Hz

Power Factor

0.8

Technical Details

Voltage Options

- 400 / 230V
- 380 / 220V
- 220 / 110V

Cooling Method

Closed Water Cooling, Air Force Cooled

Starting Method

Electric start

Phase Configuration

3-phase, 4-wire

Applications

Primary Applications

Residential/Home • Emergency Backup • Construction • Telecom • Agriculture • Remote Locations
