

6-Burner Tempered Glass Gas Cooktop

This 6-burner gas cooktop features a tempered glass surface. It is designed for built-in installation and offers precise flame control for versatile cooking options.

Product Overview

High-Efficiency 6-Burner Gas Cooktop

This premium built-in gas hob features a high-quality tempered glass surface designed for both durability and modern kitchen aesthetics. With six versatile burners, it provides ample cooking space and precise flame control for professional-grade results. Integrated safety features, including a flame failure device, ensure a secure cooking environment by automatically cutting off gas supply if the flame is extinguished.

Design & Construction

The sleek tempered glass surface provides a modern look while remaining easy to clean and maintain.
