

6-Inch 18W LED Downlight

This high-performance downlight is optimized for both new construction and retrofit applications. It is available in a 6-inch size and provides quick, easy installation.

Product Overview

High-Efficiency 6-Inch LED Downlight

This 6-inch LED downlight provides bright, uniform illumination with efficient 18W power consumption, ideal for residential, commercial, and hospitality settings. Engineered for durability, it features an integrated heat sink for superior thermal management and a long operating lifespan. Its sleek, white-finish design ensures a seamless, modern look when installed in recessed ceilings.
