

# 60mm Mushroom Head Emergency Stop Push Button Switch

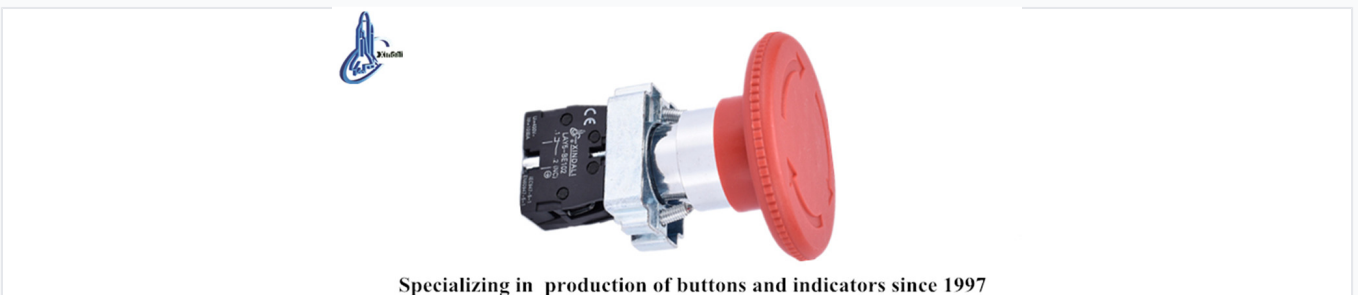

This emergency stop switch features a 60mm mushroom-shaped push button for easy activation. It is designed to quickly and reliably interrupt power in emergency situations.

## ADDITIONAL IMAGES

## Product Overview

Specializing in production of buttons and indicators since 1997

Robust design suitable for harsh industrial environments.

## Industrial Emergency Stop Switch

This 60mm mushroom head emergency stop push button switch is engineered for critical safety applications in industrial and commercial environments. Designed for immediate power interruption, it features a robust construction using zinc alloy and high-grade anti-flam plastic for durability. Compliant with international safety standards, this switch provides reliable performance in control circuits, distribution cabinets, and power stations.

### Mechanical Life

**1000000 cycles**

Pushbutton Cycles

### Electrical Life

**500000 cycles**

Pushbutton Cycles

Head Diameter	60 mm
Rated Insulation Voltage	AC 600V (50Hz/60Hz)
Conventional Heating Current	10 A

## Performance & Safety

### Certifications

CE • ISO 9001 • RoHS • UL

Insulation Resistance	e5M©
Contact Resistance	d25©
Withstand Voltage	AC 2.5KV/min

## Applications

### Suitable Environments

- Distribution Boxes
- Distribution Cabinets
- Control Cabinets
- Power Stations
- Communication Networks
