

6202ZZ Deep Groove Ball Bearing

This high-precision 6202ZZ deep groove ball bearing is designed for optimal performance. It features robust steel construction, pre-lubrication for extended service life, and ZZ shields for protection against contaminants.

Product Overview

High-Performance Deep Groove Ball Bearing

This 6202ZZ deep groove ball bearing is engineered for optimal performance in demanding industrial environments. Constructed from high-quality bearing steel, it features ZZ shields to provide essential protection against contaminants, ensuring extended service life. Designed for minimal friction and noise, it is an ideal component for high-speed applications such as electric motors, gearboxes, and general machinery.

Technical Specifications

Shielding

ZZ Shields • Double Shielded

Bearing Type	Deep Groove Ball Bearing
Model Number	6202ZZ
Material	Bearing Steel

Key Features

Key Benefits

- Super high quality construction
- Pre-lubricated for extended service life
- Designed for minimal friction and low noise
- Suitable for high-speed operation
- Excellent radial load support
