Product Overview

High-Performance 6.5-inch Coaxial Speaker

This 6.5-inch 2-way coaxial speaker is engineered for clear and accurate sound reproduction, making it an ideal choice for high-quality audio systems. Featuring a durable rubber surround with a glass fiber knitting cone, it provides enhanced cone excursion and superior damping for consistent performance. With a robust 120-watt peak power handling capacity, this unit is built to deliver reliable and immersive audio in demanding environments.
