

65 L Metal Tray Wheelbarrow

This wheelbarrow has a 65 L metal tray with a 130KG capacity. It features a tubular metal frame and a rubber pneumatic wheel, suitable for workplace, garden, and home activities.

Overview

Robust Material Handling

The 65 L Metal Tray Wheelbarrow is a versatile tool engineered for demanding landscaping, construction, and gardening tasks. Featuring a reinforced metal tray and a heavy-duty steel frame, it is built to support loads of up to 130kg with ease. Its ergonomic design and multiple wheel options ensure stability and maneuverability across various terrains, making it an essential asset for professional and residential use.
