Product Overview

High-Performance Charging Solution

This 67.2V 6A charger is engineered specifically for electric motorcycles, scooters, and e-bikes. Featuring a durable aluminium alloy housing, it ensures efficient heat dissipation and reliable operation for 16S battery packs. With global compatibility and safety certifications, it provides a dependable power solution for professional and personal electric mobility applications.

Technical Specifications

Output Voltage	67.2 V
Output Current	6 A
Input Voltage Range	110-132VAC, 200-264VAC
Output Power	500 W

Compatibility & Usage

Compatible Battery Types

Li-ion • LiFePO4 • Lead Acid

Target Applications

- Electric Motorcycles
- Electric Scooters
- E-bikes

Physical Attributes

Dimensions	173 x 90 x 63 mm
Net Weight	1.1 kg
Housing Material	Aluminium Alloy

Compliance & Support

Certifications	CE
Warranty Period	12 Months
