Overview

Fully-closed silent enclosure with residential silencers and high-quality sound-absorbing materials.

Professional Silent Power Solution

This 69kVA standard silent diesel generator is engineered for reliable, high-performance power in noise-sensitive industrial and commercial environments. The unit features an advanced fully-closed noise reduction design with residential silencers and flame-retardant sound-absorbing materials. Built for durability and ease of maintenance, it includes an external fuel filler, forklift adapters, and a weather-proof enclosure.
