

# 6A 2-Pole Miniature Circuit Breaker

This miniature circuit breaker protects electrical circuits from overload and short circuits. It is rated for 50Hz and 230V/400V operation with a 6000A breaking capacity.

## ADDITIONAL IMAGES

## Product Overview

### Professional Circuit Protection

This 2-pole miniature circuit breaker is engineered for reliable overload and short-circuit protection in both residential and commercial electrical distribution systems. Featuring a high-performance design, it ensures safety and longevity with fire-resistant, shockproof materials. It is suitable for diverse lighting and motor distribution applications, providing consistent performance under demanding conditions.

## Technical Specifications

### Rated Current

**6 A**

Rated Current

Breaking Capacity	6000 A
Voltage Rating	230V/400V
Frequency	50 Hz
Number of Poles	2
Tripping Curve	C-Curve

## Compliance and Standards

Regulatory Compliance	IEC60898-1, GB10963.1
-----------------------	-----------------------

## Features

### Product Highlights

- High fire-resistant and shockproof construction
- Visual ON/OFF status indicator
- Suitable for motor and lighting circuits
- Compact and lightweight structure
