Overview

Professional Circuit Protection

This miniature circuit breaker is engineered for reliable overload and short-circuit protection in AC 50/60Hz electrical systems. Designed to operate at rated voltages of 230/400V, it supports currents up to 63A, making it a versatile solution for residential, commercial, and industrial infrastructure. The unit ensures safety and compliance with international standards, providing a robust mechanism for both circuit protection and infrequent line switching.

Technical Specifications

Breaking Capacity

6000 A

Breaking Capacity

Rated Voltage 230/400V AC

Rated Frequency 50/60Hz

Maximum Rated Current 63 A

Compliance & Standards

Standards & Certifications IEC60898, IEC60898-1, GB10963.1, CE

Application

Suitable Applications

- Residential Buildings
- Commercial Facilities
- Industrial Installations
- High-rise Buildings
