Overview

Reliable Silent Power Generation

This silent diesel generator is engineered for dependable performance in both construction and outdoor environments. Featuring a robust 498cc engine, it delivers a peak output of 6000 watts, ensuring a stable power supply for demanding applications. The unit is designed with a soundproof casing and double mufflers to minimize noise, making it an ideal choice for residential or commercial settings where quiet operation is required.

Key Performance Metrics

6000 W

Peak Output

6400 W

Running Output

498 cc

Engine Displacement

9 hours

Runtime at 50% Load

Technical Specifications

Engine & Operational Features

- Electric start system with battery included
- Automatic low-oil level shutdown
- Stable output frequency
- High output torque
- Double mufflers for noise reduction

Safety & Construction

Hydraulic-Magnetic Circuit Breaker, Soundproof Casing, Covered Outlets, Steel Fuel Tank, Integrated Fuel Gauge, Wheeled Mobility

Service & Support

Service & Manufacturing

Feature	Details
Customization	OEM & ODM Available
Standard Delivery	35 Days (Container/Sample)
Quality Control	Strict component & machine testing
