

6x4 Narrow-Body Tipper Truck

This heavy-duty tipper truck is designed for transporting bulk materials. Its narrow-body configuration enhances maneuverability in confined spaces, while the tipper mechanism allows for efficient unloading.

Overview

Heavy-Duty Narrow-Body Tipper

This 6x4 narrow-body tipper truck is engineered for efficient bulk material transport in demanding environments. Its compact design significantly improves maneuverability in confined spaces, while the robust chassis and powerful 221kW engine ensure reliable performance under heavy loads. Equipped with a hydraulic central lift system and high-capacity cargo bed, it provides a dependable solution for construction and mining logistics.

Performance & Drivetrain

Key Performance Metrics

221 kW

Max Power

78 km/h

Max Speed

11065 kg

Rated Payload

Drivetrain Specifications

Specification	Detail
Drive Model	6x4
Transmission	9JS135T
Clutch	1430diaphragm spring
Emission Standard	Euro II

Technical Specifications

Weights & Dimensions

- G.V.W: 22500 kg
- Kerb Mass: 11240 kg
- Overall Dimensions: 8080 x 2452 x 3200 mm
- Wheelbase: 3600 + 1350 mm

Cargo Bed Construction

- Interior Dimensions: 5400 x 2300 x 1300 mm
- Bottom Steel Thickness: 8 mm
- Side Steel Thickness: 5 mm
- Lifting System: Hydraulic Central Lift

Tire Configuration

11.00-20, 11.00R20, 11R22.5

Cabin & Comfort

Cabin Features

Classic flat roof • Air Conditioning • Radio • Bunk
