Overview

Urban Commuting Redefined

This 700C electric city bicycle is engineered for comfort and efficiency, featuring a lightweight aluminum alloy step-through frame specifically designed for easy mounting and dismounting. Ideal for urban environments, it combines a practical design with an electric assist system that makes tackling hills and longer distances effortless. Equipped with essential city-riding accessories like fenders, a rear rack, and integrated lights, this e-bike is a reliable solution for daily commuting or leisurely city travel.
