

700MB CD-R Media

This CD-R media provides 700MB of storage with an 80-minute recording time and 52x write speed. It is suitable for archiving data, recording music, and creating backups.

Product Overview

Professional Grade CD-R Media

This 700MB CD-R media provides a reliable and cost-effective solution for professional data archiving, music recording, and digital backups. Engineered for performance, it supports high-speed recording up to 52X, ensuring efficiency during large-batch duplication tasks. Packaged in convenient shrink-wrapped sets, this media is designed for seamless compatibility with standard CD-R drives.
