

710W Impact Drill for Wood, Metal, and Masonry

This 710W impact drill is designed for drilling into various materials, including wood, metal, and masonry. Its robust motor delivers ample power, while the impact mechanism ensures efficient drilling in hard materials like concrete and brick.

Product Overview

Versatile 710W Impact Drill

This 710W impact drill is engineered for versatility, making it an ideal choice for drilling into wood, metal, and masonry. It features a robust motor and an integrated impact mechanism, ensuring efficient performance even in demanding materials like brick and concrete. With variable speed control and an ergonomic design, this tool provides the precision and comfort required for both professional and DIY applications.

Technical Specifications

Rated Power	710 W
Voltage/Frequency	220-240V~/50Hz
No-Load Speed	3000 rpm
Impact Rate	48000 bpm
Chuck Capacity	13 mm
Chuck Type	Plastic keyless chuck

Performance Features

Motor Wiring	Aluminum Wiring
Suitable Materials	Wood, Metal, Masonry
